

SIMPLY PERFECT! (Shelley, MD)

"I have always had a problem with mixing protein drinks. Either the stuff would never mix right, and/or it would somehow leak out of the blender/shaker...plus, I could never expect a lid to fit tight and stay tight while carrying the bottle somewhere. I would never have imagined how well something this SIMPLE could work so well!!!! Easy to clean, carry, and drink from too! Thanks for the reviews everyone. You all convinced me to try them, and I LOVE "EM!"

Best I've Found (Scott, NC)

"This is the first shaker bottle that works! The lid stays tight and does not leak. The wire ball mixes my shakes very thoroughly. The cap stays in place and snaps shut so you know where it is and when it is closed. The mouth to the bottle and the bottle are both large enough to handle large quantities. I might just buy another set.... "

A Kitchen Necessity (Lucy, FL)

"A must have in every kitchen because anything you put into them gets mixed thoroughly and they don't leak. They're great for my homemade salad dressings. I've mixed batter and puddings and everything comes out smooth. No lumps ever!"

Quality Supreme (Dru, AZ)

"Durable plastic holds up fabulously well in dishwasher and the color does not fade. The lid screws on perfectly and there are no leaks!! Mixing is so easy. This product is well engineered. All details were thought out before this product hit the market. I just can't think of anything that needs improving! I'm sure I'll order the smaller size . . . !"

Best Shaker Bottle I've Found (Geri, VA)

"I've tried several similar products and they either leak or don't pour smoothly. Some don't mix very well. My protein powders mix superbly in this bottle and I've not had a leak yet! The top is easy pour and bottle is the perfect size. I would highly recommend them."

Perfect for the gym (Pierre-Alexander, NY)

"Over the past half-dozen years, I'd gone through a fair number of shaker bottles, but they'd all started leaking after a few weeks, if not sooner. Nothing such with the blender bottle I now use daily, including at the gym. I'd checked this item out after reading about it on two different bodybuilding forums; it was mainly vaunted for its being leak-free, but I also remember claims that protein powders mixed with it tasted better than the same powders mixed with the usual shaker bottle... and it's true, though it's certainly more a question of smoother texture than actual taste. Someone also compared the flip top to a German car door, because it stays securely shut even when you shake the bottle. Finally, the blender bottle is rather easy to wash, even by hand, and while I was afraid that the little wire ball would be noisy should the bottle be shaken while nearly empty, it hasn't proven to be a problem."

Blender Bottle beyond expectation! (Judy, NY)

"I use protein powder and have never seen it blended this well without an electric blender!! Takes a minute to blend with either water or low fat milk, and you have a frothy, healthy protein shake! My husband used it to blend eggs for an omelet, and it was so fluffy, not like when you beat the eggs with a fork! I don't know how I lived without these blender bottles! Oh, and cleanup is a snap!!!"

Only ones that work! (Susan, WI)

"I have purchased just about every shaker, mixer, magic blender wand, etc. that's been on the market over the last 5 years. These bottles are the first thing that works, in particular for protein shakes. They not only mix well, they don't leak and don't break. I've been using them for about 6 months so they've had a workout. I'm ordering [more]!"

Truly Customer Focused (P. A. Lara)

"I received my new bottle this weekend and it is great (my wife wants to keep it now). I will definitely tell everyone what a solid company you are. As a veteran I know the meaning of honor and you have a very honorable company who truly is customer focused. Thank you once again for your support."

Easier and More Convenient (Lisa Ferazza)

"We have a daughter with cystic fibrosis and she requires extra calories to grow as a result. She drinks a weight gain shake almost every day. Until we got the BlenderBottle we used the electric blender to mix it up. Your bottle is so much easier and more convenient to use!

Almost all kids who have CF drink these shakes, so I mentioned it to the CF care team at our clinic. . . . Thanks for your time, and for making my time more productive!"

Thank You, Thank You, Thank You! (Patti Payne)

"I think [the BlenderBottles] are a great great item . . . so handy that I have purchased eight BlenderBottles to give to my friends as gifts! Thank you thank you thank you!"

For the Most Mobile Moments! (Sunny, CO)

"I purchased a mini BlenderBottle several months ago. . . . We live a very light and mobile life, having this great simple bottle has enabled us to have our morning green drink at the most mobile moments!!! I just read through all the testimonials and didn't see anyone mention bananas. I sliced my bananas nice and thin and by golly this gadget blended them smooth and fluffy with my morning blender drink!!!! Thanks!"

Quality and Design (Matt K.)

"Hello, I have one of the BlenderBottles and I love it, I have just ordered three more . . . for friends who want them. I like the quality and design so much, that I will continue to show off the BlenderBottle and tell everyone who asks me about it how cool it is. Thanks!"

WOW! (Sandy)

"What a Great Product. I have been through many leaky, bogus, shaker cups. The Blender Bottle is the best. You achieve a perfect seal without the need for a rubber gasket, and the blender ball really does its job. Now I know what I can get a presents for all my protein shake drinking friends. Thanks."

Thanks for such a great product! (Adam)

"...the bottles arrived two days ago. Their quality and efficiency in completely and quickly dissolving powder in water has exceeded my expectations and even affords me a little extra time to devote to working out. No more futile attempts at properly mixing powdered drinks with a spoon for me! I gave one of my Blender Bottles to a friend who's now using it as well, and I know she's showing it to people at her gym. Expect more orders (from me too)!"

EUREKA!!! (Sandra, CA)

"This is the best new product! I simply love it. I'm still amazed how well it works with my protein shakes. My shakes are lump free and the best part is the clean-up. I recommend the blender bottle to my gym buddies, co-workers, friends, and my family. I gave my boyfriend and brother-in-law one, because I wanted them to enjoy this wonderful product as much as I have. Try it, you will thank yourself. This is a great stocking stuffer. I will be ordering more!"

Excellent Mixing!!! (Aunt Ruth, NY)

"My mom bought these and gave one to me and my sister. All I can say is WOW! I use them to mix up . . . powdered drinks and they work extremely well. No lumps and very frothy.....great product!"

Best for Baby Formula!!!! (Lynn, PA)

"I originally bought these for my husband for his protein shakes and they worked awesome. When I had my son I found out how great they worked on powdered baby formula. NO LUMPS!! Thanks!"

Love these shaker bottles! (Mary, CA)

"I ordered these over a year ago and just love them! I use them to mix powdered protein drinks and they work great!"

As Good As It Gets (Kim, MS)

"This is the best shaker set you'll ever need. I bought this a few month ago and can't stop finding ways to use it. It makes the best salad dressing mixer. I buy . . . power drinks and they come out so smooth like a milk shake. I even use these shakers for pancake mix. IT IS A MUST HAVE . . .!"

I was skeptical, but it's terrific! (Gary, WI)

"I love eggs. The trouble has been that my omelets aren't near as light and fluffy as expensive ones from quality restaurants. The first thing I did was to whip up an omelet with a splash of water. In less than 10 seconds I was pouring the best omelet into my pan I've had in years. Next I was pleased with some of the lightest and tastiest pancakes I've ever eaten. Wonderful product."

Great! (Ruth, NJ)

"I used it to make powdered milk shakes and I was amazed how quickly and effortlessly it was to get a terrific milk shake. Thank you for a great product."

Manufacturer should be proud (Kirsten, AZ)

"This product is very well made and does what they say it does. I like to mix juice/smoothie drinks with . . . powder and it was a very messy proposition until I got the BlenderBottles. Can't wait to try eggs, batters, etc. Order these - you won't be disappointed."

I would recommend the Blender Bottle to my friends (Kyle, OH)

"I have only owned the BlenderBottle . . . for a short time. I have done Chocolate Milk and my protein drinks in there already. I will have try pancake batter in there. The best money I have ever spent, and it does the job. Buy the BlenderBottle and you will not regret it. I will tell my friends about it."

LOVE, LOVE, LOVE (C. Johnson, NY)

"My son and I use these for carrying good ole water around the house or on the go! Protein shakes blend wonderfully. . . ."

PERFECT! (Monique, NJ)

"I didn't think a simple thing like a shaker bottle would make me this happy, but it does. The size is generous, the individual [BlenderBall] brilliant. And the colors are delightful."

THE BEST (Mary, NC)

“These are the best shakers I have ever had. Great for on the go. The lid stays snap and nothing leaks if the bottle falls over. I use these for mixing a lot of mixes, drinks, etc. Also the bottles are made of the best plastic I have found in the market.”

Well worth the price!! (Chrissy, PA)

“I bought these for mixing protein shakes, but I've used them for mixing salad dressing, making scrambled eggs & pancake mix too. Love "em!!”

Works well (Trish, IL)

“Just got mine, used it first for a meal replacement shake (main reason for buying) and it worked great! . . . Why didn't I think of this? Can't wait to try it out for eggs and other items that I normally use a whisk for. Very cool! Going to get the smaller size as well. Well done!”

Really like the shakers! (Dee, GA)

“I am, so far, using the shakers to mix protein drinks. I have found no fault with them at all. Certainly do not have any leaks. I look forward to finding many uses for them. Thanks!”

Love this

“. . . [The BlenderBottles] are ingenious and really do the trick, even on those mixes that are hard to really blend well. They are sturdy, clean up well, seal tightly and go anywhere.”

Great product & hasn't leaked (M, SC)

“I bought these several months ago and "test-drove" one before I gave them as gifts. We all use them for protein drinks mainly, but I tried mine to mix some ranch dressing too. The best mixing of any shaker I have used, and no problems drinking from them. They are easy to take apart and put in the dishwasher. I'll probably order [more] later -- someone will lose theirs!”

Wonderful!!!! (Gail, GA)

“I always had a hard time finding a good shaker and this one fills the bill. I love the ease of the top and I have had no trouble with them leaking . . . It is perfect for blending smoothies and protein drinks, and also for cooking, when you need to make gravy or [thickening] for stews etc.”

Fantastic (Karen, MI)

“Everyone wants to steal my [BlenderBottles].... great for drinks, dressings, etc. Enjoy”

TOTALLY AWESOME (Lynda, UT)

“These are the best things invented since sliced bread! This has totally replaced me dragging out the large bulky blender/or food processor to make my vitamin drink, which is REALLY hard to mix up, and for making dressings, . . . powdered drinks, even whip cream. I don't know how I would live without these now. I've purchased several . . . for family and friends!! LOVE EM LOVE EM AND LOVE EM!!!!!!”

Excellent at blending (Drew, AZ)

"I've used this product primarily for blending protein powders. It does an excellent job at mixing the ingredients compared to the products I've used before for health food stores. When I mix up my drinks, I never get clumps or have problems mixing. Tips: I find that it works best when putting wet ingredients in first then dry ingredients."

A winner (Betty, TX)

"Don't hesitate, if you are thinking about buying these. Grab them, they are wonderful! I had a shaker from a well known manufacture[r] and liked it until I tried these. These hold more, are less messy to use, and go through the dishwasher without any problems. I use them daily for my protein smoothies and they blend the powder completely...no lumps."

Easy clean up!

"These are great! They [are] easy to clean up. Only suggestion is if mixing up dry and wet ingredients, put wet in first."

These Blender Bottles rock! (Peaches, IA)

"I ordered these wonderful blender bottles....My sons decided they each needed one for their protein shakes so they begged for them....Now we have two to share in our household between myself, my husband and the two children still at home (14 & 16) I use these for everything from mac and cheese (makes the powdered cheese mix to a thick cheesy sauce) to gravies, shakes, smoothies, scrambled eggs, pancakes, French toast...etc. And the kids use them for ice cream shakes, fruit smoothies, malted milk, and home made dips. Well, you know how great they are....My granddaughters 2, 3, and 5yrs old think that I got the smaller ones just for them since purple and bright pink are their favorite colors. I am very happy with this product and use both sizes in a normal day. I brag about them to my friends when I tell them that these little wonders help me make just about everything better. Thanks for such a great product..."

Great for protein shakes! (Nick, CA)

"Generations of french chefs [using wire whisks] can't be wrong. Seriously, it works great."

Thanks for a great product. (Marilyn, AZ)

"Just have to tell you how much I love my blender bottle. I work in the airline industry and had looked everywhere for the perfect bottle to blend my protein drinks when I'm working and don't have use of the blender.... I love the convenience this provides and the drink is smooth and well mixed... Just wish the store I went to had the purple bottle!"

Simply Wonderful (W, NM)

"These are the best! I purchased these mostly for my husband who drinks a couple of protein shakes everyday. He absolutely loves these as well – he says that it works even better than our hand blender. He also takes a blender bottle with him to work so that he has a shake before his workout – and now he can have a perfectly blended shake on the go too. These work really well for scrambled eggs too!"

Thanks for the innovative idea! (Leslie Alberta Canada)

"I came across your product display...in Lethbridge, Alberta, Canada. I am on a weight loss program...and mixed their shakes in the electric blender, which was not fun to clean. I love your bottles as they are easy to clean (no little finicky parts), comfortable to drink from, and superior quality. I showed the staff...and even purchased one for my counselor there (in fact I bought the last one in the store!) I have no doubt they will recommended them to the rest of their clients."

"I just received these bottles yesterday. We used them for the first time this morning. They are the BEST!!!!!!!!!!!!!! "What a great idea w/o the hassle of pulling out the old electric! These can be used for all your blending needs! I don't buy chocolate milk anymore I just mix mine w/NO Sugar chocolate & it's great! Scrambled eggs are a breeze too! The stainless steel whisk does the job just by shaking the bottle! The clean up is a snap...just rinse & it's ready to reuse! Kids & older persons can use this product w/easy too! It has a great grip design on the sides & measure amounts too! The 28 oz. bottle size holds a lot! You'll love this product! Highly recommend!
